Chat notes

Which entities should be included beyond PRODUCT and CUSTOMER_PURCHASE?

The user skipped this question; proceed with PRODUCT and CUSTOMER_PURCHASE only, while retaining vendor_id and customer_id as foreign-key references to entities to be defined later.

Fehintola Akinwande 10/28/2026

What should identify each entity?

PRODUCT.product_id is the primary key.

Fehintola Akinwande 10/28/2026

What data types and nullability should CUSTOMER_PURCHASE use?

ID fields should use integer types and be required.
